Boilers which are (i) rated over 150,000 B.T.U (44 KW); (ii) more than 20 years old; or (iii) used for commercial purposes are not eligible for cover on the BOILER SHIELD PLUS plan. Boilers that are over 150,000 BTU (44KW), more than 20 years old and some commercial boilers can be quoted for separately. For the BOILER SHIELD plan additional work beyond the schedule of maintenance carried out at the time of the routine service visit will be charged extra at our current breakdown labour rate. The prices charged for all parts and labour not covered in the plan will be according to the price at the time the work is carried out.
